

1. Project Description

PROJECT DESCRIPTION

Thank you for your interest in participating in a research study. This document provides an overview of the study (the “Project”), and the terms of participation.

Description

The Project.	TELUS International AI (“TIAI”) is seeking participants to support a Quality Assurance (QA) evaluation project for human-to-human audio recordings, varying in length between 5 and 40 minutes. Participants will listen to conversation recordings in their native language and assess their quality based on predefined criteria. The goal is to ensure that each recording meets project requirements for audio clarity, naturalness of conversation, correct duration, domain accuracy, and metadata completeness. Participants will evaluate recordings from various real-life domains such as Healthcare, Call Center, and Meetings, and provide structured feedback.
Project Sponsor.	TIAI is collecting the information that you submit on behalf of a client of TIAI. Our Client (the “Customer”) is not affiliated with TIAI and is a separate company that operates in the technology industry (“Customer”). We will provide you with the name of the Customer prior to the commencement of the Project if required by Applicable Law. If you decide at that time not to participate in the Project you may withdraw from it without any penalty. Any consent that you have provided to transfer information to the Customer will not be effective (i.e., we will consider your consent withdrawn).
Location.	The Project can be completed remotely from the comfort of your own home.
Schedule.	• Expected Project Duration: November 2025 – December 2025 • Estimated time to complete the task: Between 5 and 10 hours per week during the ramp-up phase, and up to 25 hours per week during full production.
Frequency.	Each participant can only complete the Project once.
Eligibility.	To be eligible to be considered for the Project you must meet the following criteria: • 18 + years of age • A laptop/ PC with Chrome browser • Native speaker of the required language/locale • Stable Internet connection for the duration of the task • Headset required to identify noise and disruptions in recordings
Payment Rate (if applicable).	Participants that are selected for the Project and that complete the Project will receive: • Payment in USD per audio file reviewed • This is an independent contractor opportunity. • Payment will be processed via Hyperwallet.

1. Project Description

Selection Process:

TIAI collects personal information in order to determine whether you are eligible to be considered for the Project. If we believe that you meet the aforementioned criteria. If you are selected you will be provided a link, by TIAI to complete the Project.

Note that submission of this Participation Agreement is not a guarantee that you will be selected for the Project. Even if you meet all of the eligibility requirements, you may not be selected for the Project for various reasons. For example, TIAI or the Customer may have received a sufficient number of participants with similar characteristics.

Data Used and Shared:

Contract Data.	Contract Data is collected about people who would like to be considered for our studies. Contract Data is utilized to, among other things, engage with you, set up your profile, administer our contractual relationship, determine project-related eligibility, and meet our regulatory obligations. If you seek to participate in this Project we may share some Contract Data with the Customer in order for them to determine eligibility and evaluate you for inclusion in the Project. For more information about how we use, collect, and share Contract Data, as well as your rights to that data, visit our Community Data Privacy Notice .
Demographic Data.	Demographic Data refers to additional data that we collect, which is not mandatory when registering with us, and that helps us evaluate your suitability for projects. If you seek to participate in this Project we may share some Demographic Data with the Customer in order for them to evaluate you for inclusion in the Project. For more information about how we use, collect, and share Demographic Data, as well as your rights to that data, visit our Community Data Privacy Notice .
Work Product Data.	Work Product Data refers to data that we, or our Customer, collects specific to this Project. Whether we collect Work Product Data on behalf of our Customer, or our Customer collects it directly, our Customer controls how it is used and shared. For more information about how the Work Product Data will be used and shared you should review our Customer's privacy notice. If you are selected, the name of our customer will be provided to you prior to the initiation of the Project if required by applicable Laws. If you choose not to participate after being informed of the Customer's name you may withdraw from the Project, and withdraw any consent that was provided to transmit your information to the Customer, without detriment.
Special Category Data.	Some of our projects involve the collection of data that may be more sensitive than others. If this Project involves such data, we will separately ask your consent to collect and transmit it to our Customer.

Questions and Additional Information:

If you have any questions or would like additional information about this Project before submitting a request to participate, please contact us at: datasourcing@telusinternational.ai.

By clicking submit I acknowledge that I have read and understand the information provided about the Project, and wish to be considered for participation. I understand that submission of this form is not a guarantee that I will be included in the Project and that I will not receive any compensation described
